All India Institute of Speech and Hearing Library and Information centre <u>Author Identifier Creation Manual</u>

Introduction

Researcher identification schemes (or author IDs) provide a unique identifier for each researcher. Having a distinctive author name is essential for academics' work to be found among a global network of researchers. Benefits of author IDs include:

- distinguishing between authors with the same name
- attributing publications to a single author despite inconsistent use of first names/initials, name changes, publications in different writing systems, etc.
- providing stable URLs to authors and lists of his/her research outputs

1. Scopus ID

The Scopus Author ID will be available only for authors who have publications indexed in the Scopus database. It is an automatically assigned identifier. Researchers having no Scopus-indexed publications cannot get a Scopus ID. To identify the Scopus Author ID,

- Open the browser at <u>www.scopus.com</u>
- Select "Author" tab and enter your name (Author) and click 'Search' (Fig.1)

2. ORCID

ORCID (Open Researcher and Contributor ID) is a persistent digital identifier to distinguish a researcher from others and support the researcher's manuscript and grant submission activities. It is issued free of cost by ORCID, a global, not-for-profit organization.

Following are the steps to create a new ORCID account

- Access <u>https://orcid.org/</u>.
- Click the "SIGN IN/REGISTER" link (Fig. 4).

← → C	?☆□	0 :
ORCID uses cookies to improve your experience and to help us understand how you use our websites. Learn more about how we use cookies.	Disr	niss

ABOUT FOR RESEARCHERS MEMBERSHIP DOCUMENTATION RESOURCES NEWS & EVENTS		- 1
	X	
Distinguish yourself in three easy steps		1
ORCID provides a persistent digital identifier (an ORCID ID) that you own and control, and that distinguishes you from every other researcher. You can connect your iD with your professional information — affiliations, grants, publications, peer review, and more. You can use your ID to share your information with other systems, ensuring you get recognition for all your contributions, saving you time and hassle, and reducing the risk of errors.

3. Researcher ID

Researcher ID is another important author identifier provided by Web of Science, free of cost. Using Researcher ID, a researcher can (a) Generate a public profile; (b) Manage his/her publication list, (c) Track citations, (d) Generate H-Index, (e) Identify potential collaborators, and (f) Avoid author misidentification.

A new Researcher ID accountcan be created by following the steps given below:

- Go to<u>https://www.webofknowledge.com/</u>
- Click the "**Register**."
- Fill in your registration detailsand click on "**Register**"(Fig. 9).

← → C	.com/register?app=wos&alter	native=true&shibShireURL=ht	ttps:%2F%2Fwww.webofknowledge.com%2F%3F	auth%3DShibbol	eth&shibRetumURL=https:%2F%2Fwww.webofknowledge.com%2	☆ □ 10 :

4. Google Scholar ID

Google Scholar is a free literature database to find scholarly research literature like articles, books, theses, and reports published in different disciplines worldwide. It has a facility to create a profile for the researcher and collate his/her publications and citations so that others can find them. Upon creating the profile, an automatic google scholar id will get generated.

A researcher must have a Gmail account to create a google scholar profile. The steps involved are given below.

- Go to <u>www.scholar.google.com</u>
- Click on **Sign in** from the right top corner of the web page. (Fig.12)
- Sign in with your Gmail email account

← → C @ scholar.google.com			e \$	₩ 🗆 () I
