Jai Sai Ram!

Respected Sir,

My niece, Mrs. Prajila Kumari, P., aged 44 years, a native of Kozhikode, Kerala, was diagnosed with rheumatic heart disease (Moderate mitral stenosis; mild mitral regurgitation) one year back and is under medication. Now, her consulting cardiologist has advised heart surgery. We would like to get an expert opinion from the Sri Sathya Sai Institute of Higher Medical Sciences (SSSIHMS), Prasanthigram, in this regard. Kindly help us with the procedure. A covering letter with patient details, present ailment, reports of the clinical and lab tests, preferred time to visit the hospital, and a copy of Aadhar are attached herewith.

Thank you,

Yours faithfully,

Dr.Shijith Kumar C

Sairam,

We went through your reports that you have sent and found that you need to undergo MVR Surgery. Please note that we have a system of wait lists for any patient coming here for the first time. Based on the present protocol of the waitlist for MVR , it will take approximately one and half years to get operated here in this institute once you get into our wait list.

Hence, you are advised to decide based on the above fact and if the patient is stable and not needing any urgent surgery, you may write back to us.

Jai Sairam!

Respected Madam/sir,

Thanks a lot for your prompt response. We are ready to wait and would like to undergo surgery at the Sri Sathya Sai Institute of Higher Medical Sciences, Prasanthigram. Kindly include the patient on your waiting list for MVR surgery. Before the surgery, is there a possibility of undergoing a check-up earlier?

We pray for the blessings of the Lord Sai Baba!

Thank you very much

Yours faithfully,

Dr.Shijith Kumar C
