## **Welcome to AIISH – From the Desk of the Director**

The All India Institute of Speech and Hearing (AIISH) is a premier institute offering programmes related to communication disorders. AIISH was established in the year 1965, fully funded by the Ministry of Health and Family Welfare, Government of India. The major objectives of the institute are capacity building, conducting research, rendering clinical services, and educating the public on issues related to communication disorders.

The institute, with the aim of capacity building in the area of communication disorders, offers several programmes. These include one certificate programme, three diploma programmes [Diploma in Hearing Aid & Ear mould Technology, Diploma in Training Young (Deaf and Hard of Hearing) and Diploma in Hearing Language and Speech-through video conferencing mode]; two undergraduate programmes [Bachelor of Science in Speech and Hearing and Bachelor of Special Education (Hearing Impairment)]; four PG Diploma programmes [Clinical Linguistics, Neuroaudiology, Augmentative and Alternative Communication and Forensic Speech Sciences and Technology]; three post graduate programmes [M.Sc. (Audiology), M.Sc. (Speech-Language Pathology) and M.S.Ed. (Hearing Impairment)]. In addition, it offers two Ph.D. programmes [Audiology, and Speech-Language Pathology] and Post-Doctoral Fellowship.

Situated in a lush green campus of 30 acres adjacent to the University of Mysore in Manasagangothri, Mysore, Karnataka, it is a unique institute in the Asian sub-continent. Its eleven departments and well equipped Library and Information Centre contribute to its uniqueness. These departments have state-of-the-art facilities to offer inter-disciplinary training to the students.

AIISH caters to clients of all ages having a whole range of communication disorders. The institute attracts students from all over India and abroad. It has strived in the past 48 years in furthering the cause of professions of Speech-Language Pathology and Audiology throughout the country and more recently in the area of Special Education. The enthusiasm to excel in reaching out to individuals with communication disorders knows no boundaries. The institute has been recognized as a Centre of Excellence in the area of Deafness by WHO, as a Centre for Advanced Research by UGC, as a Science and Technology Institute by DST, as a centre of excellence by the Ministry of Health & Family Welfare and is accredited by NAAC with highest A Grade. The institute has been recognized as a Nodal Centre for the implementation of National Programme for Prevention and Control of Deafness of Ministry of Health and Family Welfare, Government of India. Till date, 1436 students have enrolled for undergraduate programmes and 1181 for postgraduate programmes at AIISH. In addition, 53 doctoral degrees in Speech and Hearing, Audiology and Speech-Language Pathology have been awarded under the able guidance of the faculty of the institute. Further, in order to keep up with the changing trends across the world, the faculty undergo short-term and long-term training.

The AIISH Alumni Association serves as a forum for exchange of ideas and social interaction with its past students. AIISH is proud of its alumni who occupy important positions in academic, clinical and administrative setups not only in India but also in different parts of the world. They have made us proud by becoming active members of international societies in the area of speech, language, and hearing.

AIISH is committed to bring out quality professionals who can meet the challenges of helping individuals to overcome the debilitating effects of their communication disorders. It hopes to set high standards so that future batches of trained professionals always aim to reach new heights. AIISH is sure that our students will make us and the country proud.

I appreciate your choice of this profession as a career. I am confident that your dream of serving persons with communication disorders would be well realized under the able guidance of the faculty and staff of the institute. The AIISH family welcomes you to join us in our endeavour to brighten the lives of individuals with communication disorders. Best wishes for a successful and meaningful career.

## **About Speech-Language Pathologists and Audiologists**

The ability to speak and hear is the basic essence of communication for mankind. Communication skills are in great demand in this millennium, be it through verbal, written or electronic media. Communication, which is acquired early in life, is the means by which human beings gain personal, social, emotional as well as professional satisfaction. Verbal communication is considered the most effective mode of communication. These skills develop and get refined with age. There are certain conditions which lead to disorders of communication. Speech-Language Pathologist and Audiologist handle these disorders along with other professionals. They have a significant role to alleviate and manage the impact of communication disorders.

Individuals having a variety of communication disorders are generally managed by Speech-Language Pathologists and Audiologists. These disorders include voice disorders, phonological disorders, fluency disorders, learning disability, dysarthria, hearing impairment, central auditory processing disorders, aphasia and other language disorders, and speech and language disorder due to mental retardation, cerebral palsy, autism spectrum disorders, neurological disorders in children and adults and similar other conditions that affect communication skills in individuals. Speech-Language Pathologists and Audiologists offer services to persons with communication disorder in a variety of setups such as hospitals, specialized institutions and schools, teaching, and research organizations.

Trainees at AIISH study the core subjects of Speech-Language Pathology and Audiology in depth. They also study allied subjects such as Clinical Psychology, Linguistics, Electronics, ENT and other medical subjects related to speech and hearing. As a part of their clinical course work, they are guided to screen, identify and diagnose communication disorders in different age groups, ranging from new born babies to senior citizens. In order to do this, they are trained to use state-of-the-art techniques and subsequently offer management strategies and make appropriate referrals. In addition, they are taught to conduct research and document information for future reference. Opportunity and guidance are also provided to the students to participate in professional workshops, seminars and conferences in order to enhance their knowledge-base and to stimulate the young minds for research.

Those with a B.Sc. (Speech & Hearing), M.Sc. (Aud) and M.Sc. (SLP), who are registered with the Rehabilitation Council of India, are considered as full-fledged professionals. They are licensed to do private practice on their own. Apart from this, the field of speech and hearing provides plenty of opportunities, both in India and abroad, with attractive job prospects and a bright career. AIISH welcomes you to join the fraternity of Speech-Language Pathologists and Audiologists.

### **About Special Educators in the area of Hearing Impairment**

Hearing impairment is a hidden disability. Children with hearing impairment have speech-language delays, social, educational and psychological problems. They pose a variety of challenges to the general classroom teacher. These children need special help to receive adequate education. Hence teachers in a regular educational setup have to be equipped with adequate skills to meet their special instructional needs. Teachers must also understand the use of advanced equipment to facilitate learning benefits and to understand the psychosocial aspects of the disability.

A diploma programme in training young deaf and hard of hearing children is offered for the purpose of capacity building in the team for rehabilitation of young children with hearing impairment during their early stages of development. The focus of this diploma programme is on teaching methods to help pre-school children with hearing impairment for pre scholastic and communication skills. In the Bachelor's programme, B.S.Ed.(HI), the student-teacher studies the core educational courses which provide basic information on the nature and needs of different disabilities, the psychological aspects of disabilities and trends in special education. The Master's programme has core courses for a strong base of teaching pedagogy along with specialization papers in the area of hearing impairment in addition to the input from the Bachelor's programme. All the three programmes have intensive practical training.

The programmes offered in special education create a lot of professional opportunities for successful candidates. They can work in preparatory schools or can work as resource persons for children with hearing impairment and their caregivers. They will be eligible to work in both mainstream and special education setups. Besides this, they can also work as administrators in governmental and non - governmental educational programmes or become planners or policy makers who can make or change the special educational scenario in our society / country. Candidates with a proactive inclination can become researchers who pioneer developments in the field of education for both children with and without disabilities.

The Rehabilitation council of India (RCI) registers candidates with a Diploma, Bachelor's and Master's programme as full-fledged personnel / professionals in the area of special education for children with hearing impairment.
