

HTPB 330Tacho Perfect Binding Machine

Perfect binding machine from Tacho South Korea is an ideal solution for Digital book production as well as mid volume offset book binding job. It is a unique machine with scrapping device instead of milling cutter that helps bind document much stronger. Due to the unique technology it opens the book much wider than conventional perfect bound book. Book block and cover clamping is pneumatic with built in compressor. Well made aluminium body gives excellent finish to the product. The machine also offers a device for different pressure adjustments for different thickness of books up to 70 mm. It can bind soft cover as well as hard cover with ease. You can even bind 3 sheets in to a perfect bound book. You can even do only pad book making by de activating the milling operation.

Product Features

- European CE Compliant.
- Fully automated to do high speed and high volume binding jobs.
- Scraping device is a unique method to create well bound books.
- One-touch button software enables the scraping, gluing and cover clamping
- All Process completes in 10 seconds

Product Specifications

Bind Size	320x220 (Max.320 X300)mm
Cover Size	330x480 (Max.330x680)mm
Book Thickness	2~70mm
Cover Thickness	82~302gsm
Scraping cover	OK
Hand Safely Function	OK
Cover Check Sensor	OK
Manuscript Check Sensor	OK
Cover Check Sensor	OK
Warm Up Time	30~40min
Cycle Speed	300 cycle/hr
Adhesive	Hot melt
Machine Weight	235Kg
Voltage/Frequency	AC 220V/60Hz
Machine Dimensions	1390(L) X 660(W) X 1260(H)
