Sri Devaraj Urs Academy of Higher Education and Research, Kolar, Karnataka.

World Hearing Day

All India Institute of Speech and Hearing (AIISH) being a premier institute in the country for communication disorders, took the lead role to celebrate World Hearing Day 2021 in India. The theme of the event for the year 2021 was 'Hearing care for all: Screen-rehabilitate-communicate'. Various service-oriented and public education activities were conducted over a span of 30 days till 5th March, 2021 that motivated audiologists and speech-language pathologists throughout the country, resulting in PAN-India celebrations of World Hearing Day 2021. The objectives of the celebration were to increase awareness about hearing health care, the need for early identification of hearing loss and its impact on communication abilities, and early identification and

rehabilitation of hearing loss. Dr. Sandeep M., Associate Professor of **Audiologyco-ordinated** the programmes with the support of the Dept. of Prevention of Communication Disorders, Dept. of Audiology, and Dept. of ENT and a highly motivated group of audiologists and speech-language pathologists of the Institute. Dr. M. Pushpavathi, Director, AIISH carried out the overall coordination and supervision of the World Hearing Day 2021 celebrations.

The activities conducted aimed at screening, rehabilitation, and public education, in sync with the theme of World Hearing Day 2021. They include community-based hearing screening camps, hearing aid distribution camps, orientation programs, radio talks on hearing health care, live phone-in programmes, walkathon, advertisements through photo booths, standees, and gift hampers, audio-video bites by celebrities, publication of newspaper and magazine articles, short movies on hearing health care, etc. Apart from activities at AIISH, camps and public educations programmes were also held in the newborn and outreach centers across the country.

The target group included the general public of all age groups in the rural and urban sectors, medical professionals, educators, students, yoga practitioners, social workers, expectant mothers, and celebrities. Overall, the World Hearing Day 2021 activities conducted by AIISH successfully reached approximately 70 million people across the country.

The highlights of the World Hearing Day 2021 celebrations are given below.

Hearing screening camp for railway employees: The Institute, in association with the Railway Medical Department, Mysuru conducted a hearing screening camp for Railway employees at Mysuru Divisional Office of South Western Railway. A total of 160 staff participated in the camp, and among them, 26 were referred to AIISH for further detailed evaluation. The programme was co-**ordinatedby** Dr. D.C. Pradeep,

Assistant Chief Medical Superintendent, Railway Hospital, Mysuru, along with an Institute team led by Shri. Shreyank P. Swamy, Assistant Professor in Audiology, AIISH. Dr. G.S. Ramachandra, Chief Medical Superintendent, Railway Hospital, Mysuru was present on the occasion.

Live phone-in programme: A live phone-in programme was organized, giving people across Karnataka, an opportunity to clear their doubts and concerns about hearing and auditory disorders from the Institute's experts. There was an overwhelming response from the public to this new initiative.

Radio talk at Community Radio Stations in Karnataka: An interview with Dr. Sharath Kumar K. S. and Ms. Srividya, the audiologists working with the Institute, was recorded and broadcasted over ten community radio stations in Karnataka. The topics covered include 'Ear and hearing care', 'Assessment of hearing', and 'Diagnosis of hearing disorders and rehabilitation'.

Ear and hearing care awareness through competition: Several competitions were conducted in virtual and physical mode to create awareness about ear and hearing health care. The target groups include journalists, central government employees, high-school, undergraduate, and postgraduate students, parents of special children from Karnataka, Kerala, Tamil Nadu, Uttar Pradesh, Odisha, and Rajasthan and the staff and students of SVYM, Sarguru, Karnataka.

Distribution of masks: Custom-printed khadi face masks with World Hearing Day, 2021 message were distributed among the staffs and students of the Institute and

among the participants of the hearing screening camps, orientation programs, street plays, and walkathon organized by the Institute.

Distribution of gift hampers with World Hearing Day card: Gift hampers consisting wooden spoon, wooden fork, paper straw, sugar, milk powder, salt, tissue paper along with a World Hearing Day card having QR code and facts on hearing were distributed in 130 star hotels of Bengaluru. The QR code directed to the hearing screening and World Hearing Day web page of the Institute.

Display of Standees: To raise awareness on hearing loss, standees carrying information on hearing loss and promotion of World Hearing Day were displayed in 100 localities in Mysuru city including the airport, railway station, University of Mysore campus, central public work department, Mysore city corporation, hospitals, primary health centres, restaurants, hotels, and shopping malls. All the displays had QR code directed to the hearing screening and World Hearing Day web page of the Institute.

Video bytes of cine celebrities: Television and cine celebrities gave video messages on the importance of ear and hearing health care, including the need for early identification and rehabilitation of hearing disorders. The messages were widely circulated over the Institute social media platforms and the personal social media pages of the celebrities.

Short video production: Four short videos stressing the benefits of early identification and effective rehabilitation of hearing loss were produced in Hindi and disseminated on social media platforms.

Publishing newspaper articles: Several newspaper articles were published in different languages on facts about ear and hearing health, clinical services and facilities on hearing care, benefits of early identification, and effective rehabilitation. Also, press releases on hearing screening camps were made and news reports on camps published.

Cyclathon and street play: The Outreach Service Center of AIISH at Sarguru, Karnataka conducted cyclathon and street play on the occasion of the World Hearing Day 2021.

Photo booths: Photo booths displaying the World Hearing Day 2021 theme, 'Hearing Care for All: Screen, Rehabilitate, Communicate' were set up within and outside the AIISH campus. The general public and the beneficiaries of screening camps were encouraged to click photos in the photo booths and use them as display picture on social media accounts to spread the World Hearing Day messages.

Screening camps and hearing aid distribution: The Outreach Service Centers of the Institute located in different districts of Karnataka conducted hearing evaluation and screening camps. The individuals identified with hearing loss were tested with hearing aids, and the suitable hearing aids were provided free of cost.

Free Hearing Aid Distribution: To mark the World Hearing Day, the Institute distributed hearing aids to the needy people, free of cost on 5th March 2021. On the occasion, Sri. Pratap Sinha, Hon'ble Member of Parliament, Mysuru-Kodagu Constituency gave away the aids to 70 beneficiaries from Mysuru, Mandya, Chamarajanagar, and Kodagu districts. Dr. M. Pushpavathi, Director, AIISH was present.

World Hearing Forum Membership: *The Institute was awarded membership in the prestigious World Hearing Forum, a global network of stakeholders promoting ear and hearing care worldwide, created by the World Health Organization in 2018. The award was in recognition of the active participation of the Institute in the World Hearing Day 2021 celebrations.*

Speech and hearing screening camp at Gujarat: In commemoration of Mahatma Gandhi's historic Dandi March, the Institute organized speech and hearing screening camps in six villages of Gujarat from 21st to 23rd March 2021. A multidisciplinary team of professionals from the Institute consisting of audiologists, ENT doctors, speech-language pathologists, and clinical psychologists screened a total of 242 villagers in the camps. Dr. N. **Swpana**, Associate Professor in Speech-language Pathology led the team. **The COVID-19 guidelines were strictly followed in the camps.**

Our Response to COVID-19

Lockdown Period

In line with the nation-wide lockdown to curb the community spread of COVID 19 from 25th March to 31st May 2020, the Institute suspended all its face-to-face engagements, and instead harnessed the online platforms to perform its activities and offer services. This way, the organization was able to continue the academic activities

including regular classes, research, clinical evaluation, therapy, rehabilitation services, and preschool education without much hindrance. Moreover, the lockdown period was gainfully used for developing a number of multimedia information resources useful for professional and public education on communication disorders.

Covid-19 Day Care Centre

A Covid-19 Day Care Centre was set up at the main campus guest house to provide emergency support for corona positive cases among the staff and students. The centre had all the clinical support facilities including oxygen cylinders.

Isolation Center

Rent-free accommodation and free food were provided for corona positive cases and primary contacts among the staff and students at the Institute guest house.

Tele-assessment and rehabilitation

The Institute launched more than 10 WhatsApp groups for various speech and hearing disorder therapies and the therapists had been in continuous touch with those in need of assistance. Through video conference, experts managed to provide services, including therapy, to more than 150 people in 700 sessions. In addition, the Tele-Centre for Persons with Communication Disorders of the Institute continued its routine tele-assessment and intervention.

Online classes

In response to the national COVID-19 lockdown in March 2020, the Institute moved quickly to online teaching and assessment. The regular classes of all the academic programmes run by the Institute were shifted to online mode and faculty members engaged classes from home throughout the lockdown period.

Counselling for the students

The students held-up in the Institute hostels during the lockdown period were provided with psychological support and counselling.

Development of public education videos

The lockdown period was gainfully used for developing public education videos and pamphlets on the prevention and management of communication disorders with the support of faculty and clinical staff. Those materials were disseminated through the Institute's social media platforms.

Hearing aid maintenance and repair

The in-house repair and servicing of the hearing aids were continued during the lockdown period. The defective hearing aids were received and sent back after repairing and servicing by post. Also, the spares and associated parts like cells of the hearing aids were sent by post to the needy persons.

Online troubleshooting of hearing aids

The Department of Electronics carried out trouble shooting of the hearing aids through video call by narrating how to fix the issues and how to handle home repair. Also, the experts of the Institute prepared videos on preventive maintenance of different types of hearing aids and uploaded on social media platforms.

Post-Lockdown Period

Standard Operating Procedure

With the objective of containing and preventing the Covid-19 after the lockdown period, a Standard Operating Procedure (SOP) was developed and implemented at the Institute in-line with the guidelines of the state and central governments. A committee was constituted in this regard under Dr. Sunder Raju, Dean and Professor in ENT. The Institute activities including clinical care were monitored according to the standard operating procedure. Meeting of the SOP committee was conducted regularly to take stock of the situation and to device necessary precaution to prevent the pandemic.

Clinical Services

The outpatient services were resumed on 18th May 2020 strictly following the Covid-19 protocols. Safety of the staff and students posted for clinical care was ensured by supplying enough quantities of Personal Protective Equipment (PPE) kits, masks, gloves and sanitizer. Also, six multi-tasking staff were deputed exclusively for sanitization of the Institute premises. All the clinical services including Audiology, ENT and Psychology were made available under one roof to avoid movements of clients across the departments. Also, the Institute extended its assessment and therapeutic services to Saturdays from December 2020 to February 2021.

Education and training

The regular classes were resumed by following the Govt. of India and the University of Mysore guidance on Covid19 preventive measures. The measures include social distancing in classrooms, hand hygiene, enhanced cleaning and isolation of symptomatic students.
