# 14 Best Moodle Plugins of 2020 You Can't Afford to Miss

Adarsh Singh

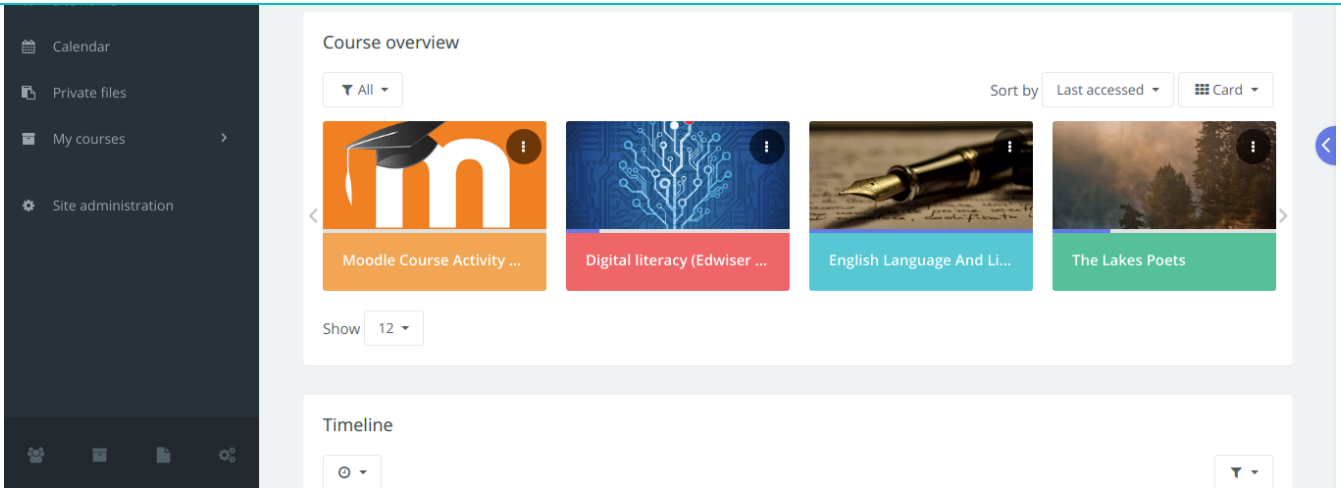

Over the years, eLearning has become synonymous to Moodle. And why not!

After all, Moodle's modular structure opens up a huge scope of customizations and enhancements. Add to that a common desire of reflecting their uniqueness via branding, more & more corporates, schools, institutions and individuals are going all-out exploring various plugins!

Here, we at Edwiser, have tried to make the search process easier for you. Let's look at plugins that are a must-have for you, covering various aspects of Moodle.

## Best Moodle Plugins of 2020

We use cookies to help us offer you the best online experience. By continuing to use our website and/or clicking OK, you're agreeing to our use of cookies in accordance with our cookies policy. [More Info](#) **Ok**

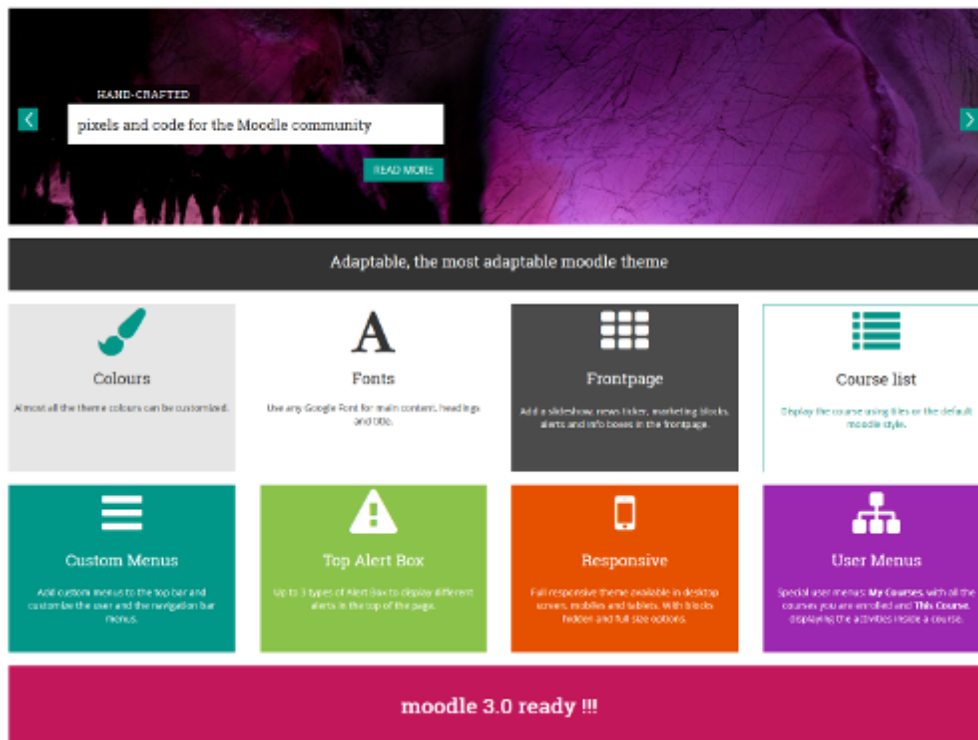

Well-known for its user-friendly design and loved by its patrons, Edwiser RemUI is a Moodle theme that brings to you a completely transformed user experience on Moodle.

Like 0

With an intuitive dashboard, collapsible sidebars, branding customizations & a lot more in the mix, Edwiser RemUI has everything you need, for a premium Moodle experience.

## #02 **Adaptable**

Like 0

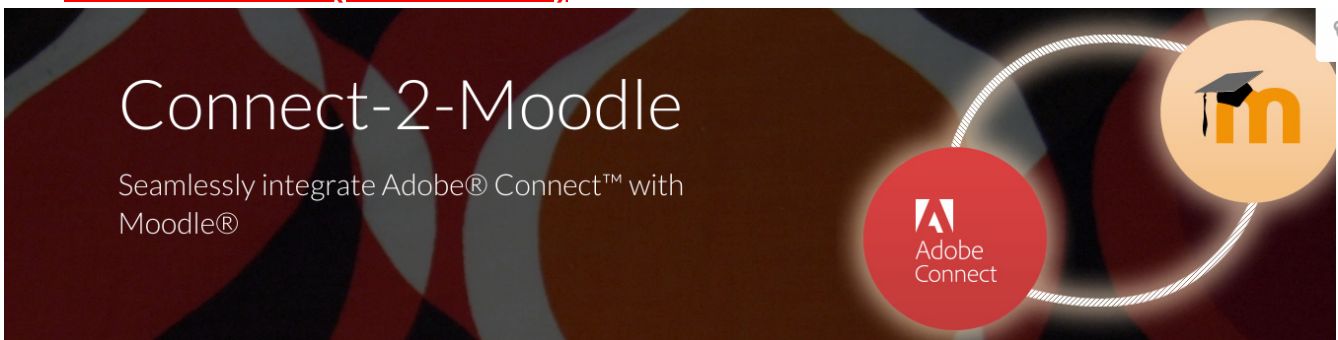

Boasting of more than 19k downloads, Adaptable is a theme that's a go-to choice, especially for someone who is new to Moodle.

Why you might ask. One major factor that plays in Adaptable's favor is the fact that Adaptable is free-to-use. Based on the popular BCL theme, Adaptable's responsive and customizable nature makes it suitable for both corporates as well as universities.

## Smooth Management of your Moodle site

### #03 [Connect-2-Moodle \(Adobe Connect\)](#)

You can integrate Adobe Connect with Moodle using the [Connect-2-Moodle](#) module.

Using this solution, you can enter Adobe® Connect meetings, launch Presenter and Captivate presentations. You can also watch event recordings with just a single click inside Moodle.

Connect-2-Moodle offers a Single Sign-On (SSO) functionality to allow information flow effortlessly in both directions.

### #04 [Edwiser Site Monitor](#)

More often than not, students complain that the Moodle site is loading slow. There are also those instances when admins are unaware of a possible crashing of their sites, and only come to know of it once the damage has happened.

Edwiser Site Monitor comes as a major sigh of relief for admins, for they can now keep track of important performance parameters of their Moodle sites.

By being updated of the functioning status of their site, admins can take necessary steps and precautions to ensure their site is up & running always!

## #05 **Edwiser Bundle – Automated eCommerce Solution**

Moodle, by default, doesn't come with any provisions of selling courses online. Tapping into this unexplored mine, solutions like Stripe integration with Moodle, and Paypal have played a significant role in monetizing Moodle courses.

However, when it comes to a comprehensive automated eCommerce solution for Moodle, **Edwiser Bundle** solution takes the gold. From acting as a digital shopfront to sell courses, automated user enrollment to effortless student user management, Edwiser Bundle checks all the boxes. Add to that the assured safety and security of your data at your end, given that this solution is completely self-hosted.

## **Gamification & Assessment**

### #06 **Level up! – Gamification**

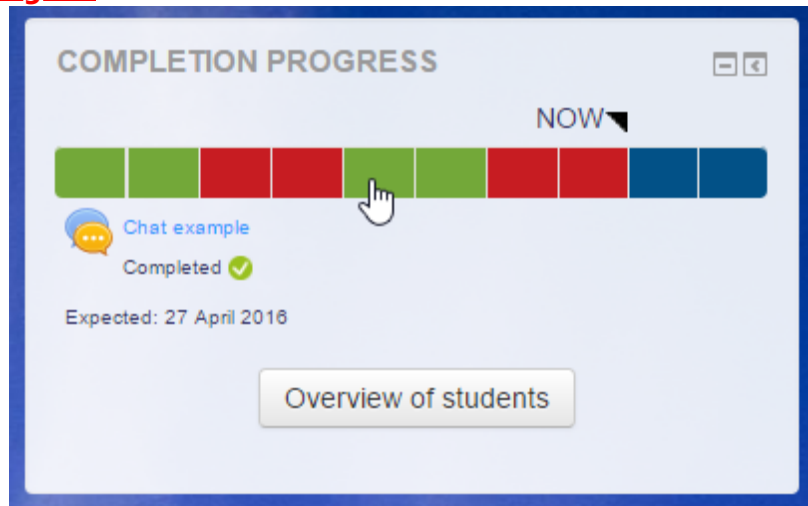

Rank	Level	Participant	Total	Progress
1	3	Rajiv Sathian	390 <sup>pp</sup>	89 <sup>pp</sup> to go
2	2	Rahul Singh	192 <sup>pp</sup>	84 <sup>pp</sup> to go
3	2	Rucha Gotarkar	138 <sup>pp</sup>	138 <sup>pp</sup> to go
4	1	Sarang Nair	24 <sup>pp</sup>	96 <sup>pp</sup> to go

Motivating and engaging learners over the years, **gamification** has managed to grab the attention of a lot of people, for all the right reasons.

Popular plugin Level up! enables you to engage your learners much better! Using this solution, you can increase engagement and participation by rewarding learners for their performance.

Other than proving to be a motivating factor for learners, gamification with Level Up! also encourages a healthy competitive spirit amongst learners.

### #07 **Completion Progress**

While learning, tracking course progress is something one can't do without. The **Completion Progress** block visually displays the activities & resources a student needs to interact with, within a course.

With color-coding in the mix, your students can quickly see what they have and have not completed or viewed.

In addition to the above, an Overview page allows teachers to track the progress of all students in a class, helping identify students needing attention.

### #08 **Configurable Reports**

Reports help a teacher understand and identify not just top-performing students, but even students that might need an extra p

Like 0

The types of reports you can create include course reports with information regarding courses, category reports, users reports, and timeline reports.

## Collaborative Learning

### #09 [Google Apps for Moodle](#)

Moodle ensures that the dependency of students on Google apps doesn't break, with active integration for Google Hangouts, YouTube, Picasa, Google Drive & Gmail.

Using [Google Apps for Moodle](#), you can do it all, be it sending emails or even let your students watch YouTube videos from their courses.

### #10 [Zoom](#)

## Zoom Meetings

### New Meetings

Section	Topic	Start Time	Duration	Actions
Site info	Office Hours	In progress	60 min	Start

### Concluded Meetings

Section	Topic	Start Time
---------	-------	------------

Over the years, Blended learning has made its mark in the online learning ecosystem.

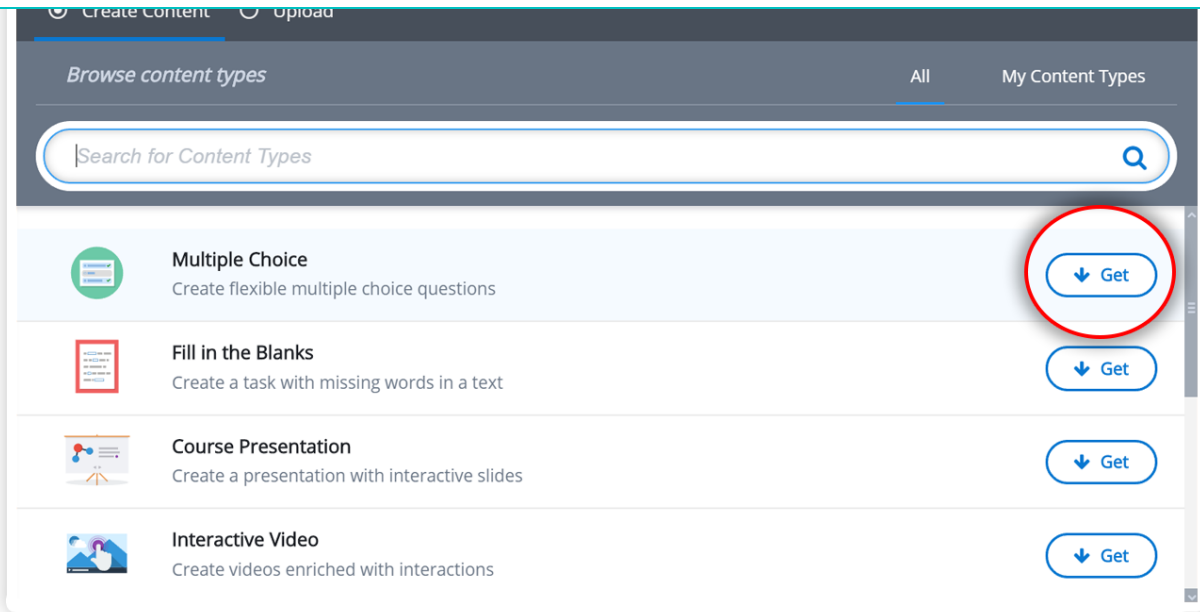

Zoom, a video and web conferencing platform, enables teachers to host online meetings & sessions with up to 50 participants. By doing so, teachers are able to deliver their lectures not just in the classroom, but even online via video.

Zoom plugin offers tight integration with Moodle, supporting meeting creation, synchronization, grading, and backup/restore.

## Effective Content Delivery

### #11 [H5P](#)

Like 0

You can create and add rich content to your Moodle site for free. Using H5P, teachers & course creators can create and edit interactive videos, presentations, games, advertisements and more.

With interactive content in the picture, you can ensure higher levels of engagement for your students.

H5P content is responsive and mobile friendly, As a result, users get to experience the same rich, interactive content on computers, smartphones and tablets alike.

## #12 [Edwiser Course Formats](#)

**Edwiser**  
**Course Formats Plugin**

**IT'S FREE**

**Card Layout**

**List Layout**

**Two Standout Course Formats,  
Now on the Moodle Theme You Use!**

Edwiser Course Formats, a free-to-use plugin, comes with two intuitive course layouts, thereby ensuring your students engage well enough with the learning material.

## Seamless Communication

### #13 **BigBlueButton**

An open source web conferencing system for online learning, BigBlueButton enables instructors to conduct LIVE online classes, virtual office hours, and group collaboration with students remotely.

You can create multiple activity links to online sessions within any course and even restrict students from joining a session until a teacher/moderator joins the session.

The BigBlueButtonBN plugin also enables you to record a session, as well as access and manage recordings.

### #14 **Edwiser Forms**

The first step before a student can access and begin his course is course enrollment. By default, enrolling a student to a course is a tedious process. Same goes with taking feedback from your students, be it on the quality of course, or quality of their mentors.

Edwiser Forms, as a free-to-use forms solution for Moodle, lets you create course enrollment and feedback forms, amongst various other types of forms, easy and quick.

You can also create forms where certain fields are shown only for specific answers given/options selected by the user. Further, Edwiser Forms also lets you create lengthy forms without endless scrolling, with its multipage forms feature.
