Special Issue: 4th European Conference on Severe Storms

Guest Editors: Dario Gaiotti and Fulvio Stel

Foreword

F. Stel and D.B. Gaiotti	1
--------------------------	---

Theory on convection, instability and forcing

Tornadogenesis: Our current understanding, forecasting considerations, and questions to guide future research P.M. Markowski and Y.P. Richardson	3
On the theory of intensity distributions of tornadoes and other low pressure systems L. Schielicke and P. N�vir	11
The influence of merging and individual storm splitting on mesoscale convective system formation M. �uri�, D. Janc and V. Vu�kovi�	21
Environmental conditions responsible for the type of precipitation in summer convective storms over Bulgaria T. Dimitrova, R. Mitzeva and A. Savtchenko	30
Negative entropy flow and the life-cycle of a severe tropical storm Y. Liu and C. Liu	39
Improving numerical simulation of a hurricane by irreversible thermodynamic operators C. Liu, Y. Liu and Z. Luo	44

Case studies on hailstorms, heavy precipitation, lightning, tornadoes and straight line winds

The southern England tornadoes of 30 December 2006: Case study of a tornadic storm in a low CAPE, high shear environment M.R. Clark	50
On the relationship between soil, vegetation and severe convective storms: Hungarian case studies �. Horv�th, F. Acs and H. Breuer	66
Case study of Mesoscale Convective Systems over Hungary on 29 June 2006 with satellite, radar and lightning data M. Putsay, I. Szeny�n and A. Simon	82
Statistical analysis of the storms event at the airdrome Baku: Modeling of the accuracy isolines of the storms registration systems N. Huseynov and B. Malikov	93
Severe storm in Bavaria, the Czech Republic and Poland on 12–13 July 1984: A statistic- and model-based analysis M. Kaspar, M. M�ller, V. Kakos, D. Rezacova and Z. Sokol	99
The analyses of thunderstorm on 4 August 2006 N.P. Berdon	111
Tornado damage analysis of a forest area using site survey observations, radar data and a simple analytical vortex model J. Bech, M. Gay�, M. Aran, F. Figuerola, J. Amaro and J. Ar�s	118
A study of a heavy rainfall event and a tornado outbreak during the passage of a squall line over Catalonia J. Mateo, D. Ballart, C. Brucet, M. Aran and J. Bech	131
Synoptic and mesoscale diagnosis of a tornado event in Castellcir, Catalonia, on 18th October 2006 M. Aran, J. Amaro, J. Ar�s, J. Bech, F. Figuerola, M. Gay� and E. Vilaclara	147
Diagnosis and sensitivity study of two severe storm events in the Southeastern Andes E. Garc�a-Ortega, L. L�pez and J.L. S�nchez	161
UHF wind profiler observations during a tropical pre-monsoon thunderstorm – A case study S.M. Deshpande and P.E. Raj	179

Numerical simulations in particular on mesoscale domains and by clouds resolving models

Effects of an assimilation of radar and satellite data on a very-short range forecast of heavy convective rainfalls Z. Sokol	188
---	-----

Assimilating surface data into a mesoscale model ensemble: Cold pool analyses from spring 2007 D.J. Stensrud, N. Yussouf, D.C. Dowell and M.C. Coniglio	207
Numerical modeling of severe convective storms occurring in the Carpathian Basin Á. Horváth, I. Geresdi, P. Németh, K. Csirmaz and F. Dombai	221
Uncertainty in the area-related QPF for heavy convective precipitation D. Rezacova, P. Zacharov and Z. Sokol	238
A study of the triggering mechanisms for deep convection in the Tropics using a Mesoscale Model: Hector events during SCOUT-O ₃ and TWP-ICE campaigns. (3.10) R. Ferretti and S. Gentile	247
<i>Severe storms and satellite information</i>	
Application of Meteosat SEVIRI channel difference 0.6 µm–1.6 µm in convective cells detection N.S. Mahović and B. Zeiner	270
Mid-level jet in intense convective environment as seen in the 7.3 µm satellite imagery C.G. Georgiev and P. Santurette	277
Vibo Valentia flood and MSG rainfall evaluation F. Chiaravalloti and S. Gabriele	286
Usefulness of satellite water vapour imagery in forecasting strong convection: A flash-flood case study C.G. Georgiev and G. Kozinarova	295
Relationship between cloud-to-ground discharge and penetrative clouds: A multi-channel satellite application L.A.T. Machado, W.F.A. Lima, O. Pinto Jr. and C.A. Morales	304
<i>Severe storms and RADAR information</i>	
Simulations of X band thunderstorm airborne radar observations O. Pujol, F. Mesnard, C. Costes, H. Sauvageot, N. Bon and J.-P. Artis	310
CELLTRACK – Convective cell tracking algorithm and its use for deriving life cycle characteristics H. Kyznarová and P. Novák	317
Quantitative precipitation forecast using radar echo extrapolation P. Novák, L. Březková and P. Frolík	328
Study on the mesoscale structure of the heavy rainfall on Meiyu front with dual-Doppler RADAR H. Zhou	335
Discriminant methods for radar detection of hail L. López and J.L. Sánchez	358
<i>Forecasting and nowcasting of severe storms</i>	
Severe thunderstorm and tornado warnings in Europe J. Rauhala and D.M. Schultz	369
Evaluation of thunderstorm indices from ECMWF analyses, lightning data and severe storm reports R. Kaltenböck, G. Diendorfer and N. Dotzek	381
Comparing nowcastings of three severe convective events by statistical and NWP models Z. Sokol and P. Pešice	397
Uncertainty of precipitation estimates in convective events by the Meteorological Service of Catalonia radar network L. Trapero, J. Bech, T. Rigo, N. Pineda and D. Forcadell	408
Model Output Statistics to improve severe storms prediction over Western Sahel O.S. Idowu and C.J.d. Rautenbach	419
Prognosis of Central-Eastern Mediterranean waterspouts A.G. Keul, M.V. Sioutas and W. Szilagyi	426
Ground wind convergence as source of deep convection initiation A. Pucillo, D.B. Giaiotti and F. Stel	437
Assessing sounding-derived parameters as storm predictors in different latitudes J.L. Sánchez, J.L. Marcos, J. Dessens, L. López, C. Bustos and E. García-Ortega	446
Downburst-producing thunderstorms in southern Germany: Radar analysis and predictability N. Dotzek and K. Friedrich	457
Improving hail identification in the Ebro Valley region using radar observations: Probability equations and warning thresholds M.C. Mallafre, T.R. Ribas, M. del Carmen Llasat Botija and J.L. Sánchez	474
<i>Climatology, climate change and database of severe storms and related weather phenomena</i>	
ST-AR (STorm-ARchive): A project developed to assess the ground effects of severe convective storms in the Po Valley E. Collino, P. Bonelli and L. Gilli	483
Variability and trends of extreme precipitation events over Bulgaria (1961–2005) L. Bocheva, T. Marinova, P. Simeonov and I. Gospodinov	490

Severe convective storms phenomena occurrence during the warm half of the year in Bulgaria (1961–2006) P. Simeonov, L. Bocheva and T. Marinova	498
Long-term precipitation variability on thunderstorm days in Poland (1951–2000) Z. Bielec-Bakowska and E. Lupikasza	506
Hail characteristics of different regions in continental part of Croatia based on influence of orography D. Počakal, Ž. Večenaj and J. Štalec	516
Hail frequency, distribution and intensity in Northern Greece M. Sioutas, T. Meaden and J.D.C. Webb	526
Global climatology of Convective Available Potential Energy (CAPE) and Convective Inhibition (CIN) in ERA-40 reanalysis K. Riemann-Campe, K. Fraedrich and F. Lunkeit	534
Proximity soundings for severe convection for Europe and the United States from reanalysis data H.E. Brooks	546
On the implementation of the enhanced Fujita scale in the USA C.A. Doswell III, H.E. Brooks and N. Dotzek	554
Derivation of physically motivated wind speed scales N. Dotzek	564
Overview of ESSL's severe convective storms research using the European Severe Weather Database ESWD N. Dotzek, P. Groenemeijer, B. Feuerstein and A.M. Holzer	575
Severe hailstorms in Britain and Ireland, a climatological survey and hazard assessment J.D.C. Webb, D.M. Elsom and G.T. Meaden	587
Preliminary investigation into the severe thunderstorm environment of Europe simulated by the Community Climate System Model 3 P.T. Marsh, H.E. Brooks and D.J. Karoly	607
<i>Microphysics and electrification in severe storms</i>	
Rain events on 22 October 2006 in León (Spain): Drop size spectra M. Fernández-Raga, A. Castro, C. Palencia, A.I. Calvo and R. Fraile	619
Fitting an exponential distribution: Effect of discretization R. Fraile, C. Palencia, A. Castro, D. Giaiotti and F. Stel	636
Characterization of hailstone size spectra in hailpad networks in France, Spain, and Argentina J.L. Sánchez, B. Gil-Robles, J. Dessens, E. Martin, L. Lopez, J.L. Marcos, C. Berthet, J.T. Fernández and E. García-Ortega	641
Laboratory experiments on the effect of trace chemicals on charge transfer during ice–hail collision P.J. Prakash and P.P. Kumar	655
Hailpad-based research: A bibliometric review C. Palencia, A. Castro, D. Giaiotti, F. Stel, F. Vinet and R. Fraile	664
ECSS 2009 5 th European Conference on Severe Storms N. Dotzek	671
