ON THE COVER

Photo by Jean H.D. Fasel, MD. "The year 2016 marks the 400th anniversary of William Shakespeare's death. On this historic occasion, Prof. Jean H.D. Fasel, MD (Geneva, Switzerland) presents a masterpiece of contemporary jewelry (photo by D. Bersier): a customized skull replica of a living human being, on a scale of 1:2, produced in solid gold, displaying an unprecedented, anatomically validated level of precision. Thus, from now on, the actor playing Hamlet can specifically ask his own skull made in an eternal material the existential question: 'To be or not to be?' "
