THE THEME

The emerging technologies have brought incredible changes especially to the academic and research arena. Its drastic effect on the creation, organization, accession, and dissemination of information is remarkable. A large number of students and researcher scholars are seeking Internet for readymade solutions and easily assessable material for compiling their research outputs such as assignments, research papers and thesis.

India has taken into consideration the impact of knowledge on society. One of its genuine attempts is to transform India into a digitally empowered society and knowledge economy. The process of digitization of religious and cultural information involves transforming India into a knowledge hub where every Indian is digitally literate. Nevertheless knowledge based society assures to improve human condition, promote human rights, offer equal, inclusive, and universal access to all knowledge creation.

In the same context modern libraries being the pillars of research and education provide new opportunities for innovative research practices.

This conference is aims to bring forth all the concerns, pioneer ideas and strategies and techniques of LIS personnel who are determined to transform modern Indian libraries into the most promising place, where the rich heritage of Indian culture, Religion and research can be preserved. This major theme is further divided into sub-themes as detailed below:

- Digital preservation of religious and cultural information
- E-Learning and Knowledge portals
- Research innovations, plagiarism and IPR, copyright issues
- Future of libraries: New trends and emerging technologies
- Cloud computing, AI and its applications
- Bibliometric studies, Social and cultural networks
- Information literacy, Open Access Movement and Semantic web
- Open Source Software and e-resources
- IR and Digital Rights Management
- Total Quality Management and Marketing
