## About the glossary activity

The glossary activity module allows participants to create and maintain a list of definitions, like a dictionary.

### Glossary 3 8

Glossary can be used in many ways. The entries can be searched or browsed in different formats. A glossary can be a collaborative activity or be restricted to entries made by the teacher. Entries can be put in categories. The auto-linking feature will highlight any word in the course which is located in the glossary.

The screenshot shows a Moodle Glossary activity interface. At the top, the title "Revolution Glossary" is displayed. Below the title, there is a prompt: "Please contribute to this glossary by adding key figures of the period." To the right of this prompt is a link for a "Printer-friendly version". Below the prompt is a search bar with a "Search" button and a checkbox for "Search full text". There is also a button labeled "Add a new entry". Below the search bar are four navigation options: "Browse by alphabet", "Browse by category", "Browse by date", and "Browse by Author". Underneath these options is the instruction "Browse the glossary using this index" followed by a horizontal list of links: "Special | A | B | C | D | E | F | G | H | I | J | K | L | M | N | O | P | Q | R | S | T | U | V | W | X | Y | Z | ALL". The main content area shows the letter "A" in a large font, indicating the current alphabetical filter. Below "A", two entries are visible: "Alexander Kerensky" and "April Theses". Each entry includes a brief description and a small "X" icon with a circular arrow, likely for editing or deleting the entry.
