The **Survey** module is a course activity that provides a number of verified survey instruments, including COLLES (Constructivist On-Line Learning Environment Survey) and ATTLS (Attitudes to Thinking and Learning Survey), which have been found useful in assessing and stimulating learning in online environments. Teachers can use these to gather data from their students that will help them learn about their class and reflect on their own teaching.

The purpose of this survey is to help us understand how well the online delivery of this unit enabled you to learn. Each one of the 24 statements below asks about your experience in this unit. There are no 'right' or 'wrong' answers; we are interested only in your opinion. Please be assured that your responses will be treated with a high degree of confidentiality, and will not affect your assessment. Your carefully considered responses will help us improve the way this unit is presented online in the future. Thanks very much.
