How to configure RemoteXS Proxy

Learn how to set up RemoteXS Proxy

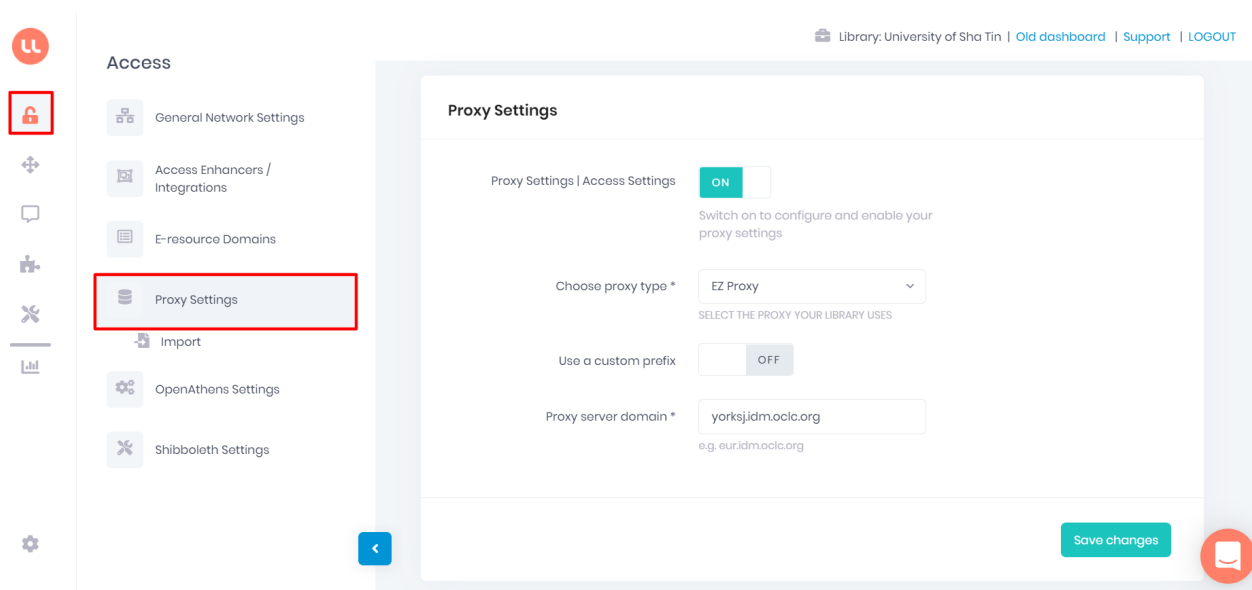

Written by Kusal Udawatte

Updated over a week ago

Configuring the Access feature with your proxy settings will allow the users to access library content when they are off-campus. All you need is your **domain of the proxy server & a list of eResource domains to which you are access.**

Please follow the below steps to configure your **RemoteXS Proxy** in the Lean Library dashboard:

1: In the Lean Library Dashboard, select **Access Settings > Proxy Settings**

2: **Enable** the proxy settings, select "**RemoteXS Proxy**" from the "Choose your proxy type" dropdown list

3: Add the **URL** of the **proxy login** > Add the **domain of the proxy server**

Proxy settings

Proxy settings | Access settings

ON

PLEASE ENABLE THIS TO CONFIGURE YOUR
PROXY SETTINGS

Choose your proxy type *

RemoteXs Proxy

PROXY TYPE

URL of the proxy login *

HTTPS://EUR.IDM.OCLC.ORG/LOGIN?l

FOR EXAMPLE:
HTTPS://EUR.IDM.OCLC.ORG/LOGIN?URL=

The domain of the proxy server *

eur.com

FOR EXAMPLE: EUR.IDM.OCLC.ORG

Save changes

4: Finally, make sure to **Save changes** to your settings
