This work is compiled as a part of an AIISH Funded Research Project on **Product Development of Useful Products of Research carried out at AIISH** by a research team comprising:

1. Dr. Prashanth Prabhu P., Assistant Professor in Audiology as Principal Investigator,
  2. Dr. Priya M.B., Lecturer in Speech Sciences as Principal Investigator,
  3. Dr. Shijith Kumar C., Library and Information Officer as Co-Investigator
- &
4. Ms. Merin Susan Mathew and Ms. Rekha D., as Research Officers

## PREFACE

The All India Institute of Speech and Hearing (AIISH) is a premier organization in the country mandated for human resource development, research, clinical care and public education in the field of communication disorders. The institute promotes research by giving particular emphasis to clinically relevant applied research on causes, control and prevention of communication disorders, assessment and treatment issues as well as the testing and refinement of new technologies for the speech, language and hearing disorders. A considerable number of tests, word lists and therapy materials are being created as by-products of such research works carried out as postgraduate and funded research. However, these valuable resources are mostly unused as they are not readily accessible for use in the clinical settings. Hence, a project has been initiated to identify, reorganise into suitable formats and publish clinically useful research works carried out at AIISH as independent books, and make them useful for the practicing audiologists and speech-language pathologists working across the country in different setups for the evaluation and management of communication disorders.

All the tests/ therapy materials that are prepared under this project are published under a series titled "*AIISH Tests & Therapy Resources*". The project team comprises: Dr. Prashanth Prabhu P., Assistant Professor in Audiology (Principal Investigator), Dr. Priya M.B., Lecturer in Speech Sciences (Principal Investigator), Dr. Shijith Kumar C., Library and Information Officer (Co- Investigator) and Ms. Merin Susan Mathew and Ms. Rekha D (Research Officers).

This book titled **Assessment Protocol for Oral Motor, Oral Praxis and Verbal Praxis Skills in Malayalam Speaking Children with Childhood Apraxia of Speech and Suspected Apraxia of Speech (APOOV-M)** is an outcome of the effort in the above direction. It was originally developed by **Ms. Rhea Mariam Korah**, in partial fulfillment of her Master's dissertation under the guidance of **Dr. R. Manjula**.

Dr. M. Pushpavathi  
Director, AIISH
